December 2019

Tree Trivia: How old is a 6 foot Christmas tree? There are close to 15,000 farms growing trees in the U.S. and over 100,000 people are employed full or part-time in the industry. It can take as many as 15 years to grow a tree of typical height (6-7 feet) or as little as 4 years, but the average growing time is 7 years.

Happy Holidays to everyone! We want to take this opportunity to remind all of you that KSP will be on Holiday Shutdown beginning on December 24th and we will re-open on January 2, 2020.
